

JOB POSTING FOR MANAGEMENT MAJOR

eCommerce Consulting Intern- 6-12 months

Clavis Insight - London - Temporary, Internship

Clavis Insight is the leader in FMCG e-commerce insight. We advise our customers on defending growing their brands on web and mobile e-commerce sites. We support them in analysing and monitoring their portfolio and competitors' Distribution, Visibility, Pricing and Promotions online.

9 out of 10 of the world's largest, and over half of the top 50, global CPG/FMCG manufacturers use our services. Our solution is deployed in over 20 major markets around the world.

In France, Clavis insight covers the major Drive, Home delivery and Pure player retailers.

We offer candidates a career development in a fast-growing international company in a dynamic environment.

ROLE RESPONSIBILITIES

We are looking for a London based e-commerce consulting intern to join our rapidly growing consulting department on a six month or one year contract.

The consulting team is responsible for ensuring Clavis customers are utilising our platform to successfully impact their businesses and deliver value across their organisations.

We also deliver high quality, bespoke services and advisories in support of the Clavis Insight solution.

The successful candidate will be responsible for supporting the office consulting team in their responsibilities to top-tier Consumer and Professional Good manufacturer customers across Europe.

The candidate will report to the EMEA consulting director and will work with team members in Boston, Dublin, London and Shanghai. e

RESPONSIBILITIES

The main assignments will be:

- a • Support consultants in running reports, analysis and presentations to customers
- Help in supporting and improving processes between consultants and Operations
- Carry out market and retail analysis for customers
- Investigate and gather information to update our market knowledge

EXPERIENCE

BA or equivalent Undergraduate degree student in final or pre-final year

- c Experience in Consumer and Professional Goods industry in e-commerce is highly appreciated
- Knowledge of the e-commerce environment

SKILLS

- b • Dedication to quality, attention to detail, persistence and ability to follow through
- Passionate with a strong desire to achieve and exceed goals
- Intellectual curiosity with a proven ability to connect disparate data points
- Excellent written communication skills
- Ability to learn new skills quickly
- d • Excellent problem solving and data analytics skills
- Demonstrated Excel mastery
- Fluent English, additional European languages highly appreciated e
